MEMORANDUM FOR AFMC/LO JAZ

FROM: AFRL/PRTC

SUBJECT: Patent Application 09/706, 427 - *Johnson* General Electric Co, Contract No.
F3361593-2305 (Petition No.13,118)

1. The Propulsion Directorate is the appropriate office to review the security classification level of the subject patent application. The secrecy order on the above-identified patent application has been reviewed by engineers of this office who have determined this patent application to be classified CONFIDENTIAL. This classification is based on the Air Breathing Turbine Engine Aircraft and Missile Propulsion Security Classification Guide revised 30 January 2002 - (Section 6, 3c(8)).

2. Please continue withholding of the secrecy order.

3. This office does not concur with the GEAE rationale for the following reasons: The level of detail and information contained in the patent application provides sufficiently sensitive information that warrants that it not be disclosed in a patent.

4. If you have any questions regarding this review, please contact me at extension 55974.
